COMMUNITY
MEDICINE

Public Hospital District No. 1
of Snohomish County

District Commissioners:
Alice Cabe
Neil Watkins
John Hinchcliffe

Michael T. Liepman
Chief Executive Officer

September 23, 2010

The Birth Center at Valley General Hospital is proud to have participated in the joyous occasion of welcoming new life into so many families. We are excited to join you through your journey as well.

Monroe Women's Care recently announced they will no longer provide obstetric care. During a time where you have many choices and decisions ahead of you, Valley General Hospital is prepared to make this transition of care as easy as possible. Physicians will be here to provide your obstetric needs through the remainder of your pregnancy and to deliver your baby.

We are committed to providing high quality care and *True Community Medicine* to our patients. Our skilled, experienced Birth Center nurses and staff are consistently rated among the best in the Puget Sound region. We pride ourselves in providing our patients with comfortable, private birthing suites equipped with state-of-the-art technology; and our Birth Center nursing staff prides themselves on giving their patients personal and attentive care.

Soon you will be receiving more detailed information about this transition. In the meantime, we encourage you to contact Norma Walker at 360-794-1489 for a personalized tour or to answer any questions you may have.

Sincerely,

Brenda Rogers
Associate Administrator,
Chief Nurse Executive
